EDUCATION

B.Sc in Computer Science and Engineering 2022 – 2026
ITMO University, St. Petersburg — Faculty of Information Technologies and Programming
Relevant coursework: Algorithms and Data Structures, Discrete Mathematics, Graph Theory, Linear Algebra, Mathematical Analysis, Computer Architecture, Web Development.

EXPERIENCE

Radix Consulting *Software Engineering Intern* Jun 2024 – Oct 2024
Python

- Wrote Python scripts for processing large JSON datasets, including parsing, transformation, and validation pipelines.
- Automated data-validation workflows that previously had to be done manually.
- Developed new features for an internal corporate Telegram bot.

SKILLS

- **Languages:** Java, Python, JavaScript, Kotlin, C
- **Backend:** Spring Boot, Spring Security, REST APIs
- **Frontend:** React, Redux, HTML, CSS
- **Databases:** PostgreSQL, SQL
- **Tools:** Git, Linux/CLI, Vim, Gradle, VisualVM, JConsole

OBJECTIVE

Backend developer at the start of my career, looking for an internship where I can contribute to a real product while learning from a strong engineering team. Comfortable with Java/Spring Boot, Python, and PostgreSQL; full-stack experience through university projects. Currently picking up Ruby on Rails.

LANGUAGES

- **Russian** — native
- **English** — C2 (lived in the US from 5 to 16 years old)

PROJECTS

- **Full-stack web application (Java + React).** Spring Boot 3 backend with REST API, layered architecture (controller / service / repository), and Spring Security authentication. React + Redux frontend with a Canvas-based UI. PostgreSQL for per-user point history. <https://github.com/Arbato/lab4-hit-check>
- **Model of an x86-style processor in Python.** Designed a custom assembly language, then built a tokenizer, translator, and a hardwired execution machine that runs the compiled code. <https://github.com/Arbato/csa-lab3>
- **Custom memory allocator in C.** Heap allocator with block-splitting, merging strategy, and dynamic heap growth. Covered with a test suite. (*ITMO Computer Architecture course.*)
